

单相限流式保护器 - 20A

产品型号: SYXL-D.20A
Product model: SYXL-D.20A

功能: 单相最大电流20A,具有短路保护, 过欠压保护,过载保护, 表内超温保护及一路RS485通讯, 数据可发送至后台监控或第三方监控软件及平台

Function: It has short-circuit protection, overvoltage protection, overload protection, over temperature protection in the meter and one-way RS485 communication. The data can be sent to the background monitoring or the third-party monitoring software and platform

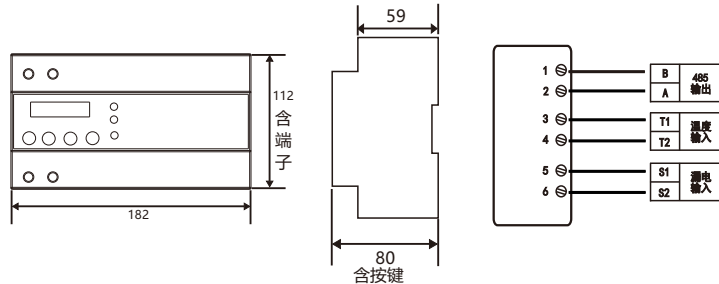

单相限流式保护器 - 40A / 63A

产品型号: SYXL-D.40A / SYXL-D.63A
Product model: SYXL-D.40A / SYXL-D.63A

功能: 单相最大电流63A,具有短路保护, 过欠压保护,过载保护, 表内超温保护及一路RS485通讯, 数据可发送至后台监控或第三方监控软件及平台

Function: It has short-circuit protection, overvoltage protection, overload protection, over temperature protection in the meter and one-way RS485 communication. The data can be sent to the background monitoring or the third-party monitoring software and platform

三相限流式保护器-63A/125A/250A

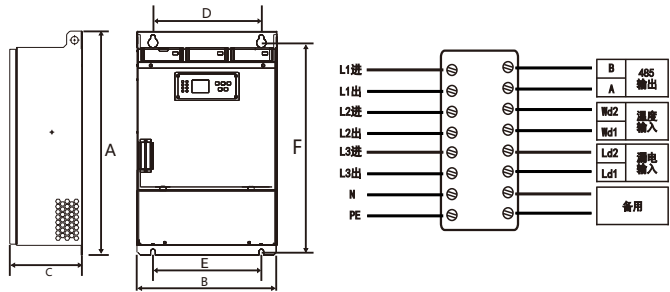

产品型号: SYXL-S.63A / SYXL-S.125A / SYXL-S.250A

Product model: SYXL-S.63A / SYXL-S.125A / SYXL-S.250A

功能: 三相最大电流250A,具有短路保护,过欠压保护,过载保护,表内超温保护及一路RS485通讯,数据可发送至后台监控或第三方监控软件及平台
Function: three-phase maximum current 250A, with short circuit protection, overvoltage/undervoltage protection, overload protection, in meter overtemperature protection and one RS485 communication. Data can be sent to the background monitoring or third-party monitoring software and platform

| 壳架型号 | A | B | C | D | E | F |
|-------------|-----|-----|-----|-----|-----|-----|
| SYXL-S.63A | 425 | 265 | 145 | 205 | 205 | 400 |
| SYXL-S.125A | 425 | 265 | 145 | 205 | 205 | 400 |
| SYXL-S.250A | 525 | 360 | 190 | 282 | 282 | 507 |

限流式保护器监控主机

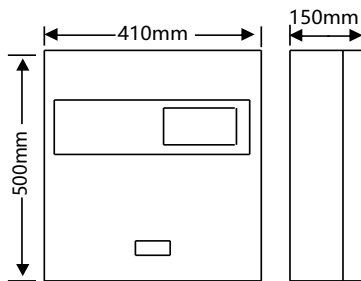

产品型号: SYXL-BG256

Product model: SYXL-BG256

产品功能: 被监控数据实时显示,准确显示各故障点位置,可远程对故障点发送指令,如复位,脱扣,自检等。还有保存,查询,故障打印等功能。

Product function: real time display of monitored data, accurate display of all faults, The position of the obstacle point can send instructions to the fault point remotely, Such as reset, trip, self check, etc. And preservation, Query, fault printing and other functions.
